Mr. Fred Wells
President

Dear Fred,

Several months ago West Coast Helicopters Maintenance and Contracting Ltd and Alliance Aviation Group entered into a business relationship .

The understanding which we entered into was that Alliance would endeavor on West Coasts behalf (as an agent) to solicit and procure aircraft parts, services, and opportunities such as was and is required in support of our flying and maintenance business.

Since that time we have experienced benefits in parts procurement sources, less in-house labor requirements administratively, an active voice with our normal suppliers as well as a vast pool of industry contacts worldwide.

I can see added areas of involvement which we will explore together and no doubt exceed each others expectations.

I wish to commend and compliment you on maintaining and bringing to your business the reputation you already had Fred, that being vision , integrity and a no nonsense approach to a very stoic playing field.

You have and will continue to succeed as you grow into the future. I will look forward to growing together with Alliance Aviation Group .

All the best Fred.

Sincerely

Terry Eissfeldt
General Manager / Director of Maintenance
